JFK assassination records appeals
Classification

Harold Weisberg 8/29/79

Attached are two different copies of a Not Recorded Serial from the 62-109090 file. The record is a/Legat, Mexico, airtel to Director of 9/4/64

One copy is stamped as classified by 2040 on 6/27/77, the other does not have the classification stamps. Both have the same exclusions.

The record was not classified prior to 6/27/77 despite a number of prior reviews.

The exclusion [illegible] not observed.

Moreover, I doubt that if the withheld content ever was any kind of "national security" information it still qualified for classification at the time it was first classified.

The subject matter is the visit of the president of the American Bar Association and the contacts extended by the FBI.

Abe Fortas and their associates were selected by the Warren Commission to represent the interests of the late Oswald. Therefore any information of this nature is relevant, particularly because the ABA people did not like to represent Oswald's interest and were in fact [illegible] against what the FBI saw as [illegible] part of the prosecution. The ABA was close to the FBI [illegible] relationship, [illegible]. One of those people describes Inspector W.C. Edwards as "a very good friend of" Walter Craig, ABA president. Mr. Edwards' name appears on the record, which is about Mr. Craig's visit.
